

What is United Way’s Day of Caring?

It is an annual day of action that connects teams of corporate volunteers with nonprofits from across the Blackhawk Region (Rock County and northern Winnebago County). Volunteer teams roll up their sleeves and provide much-needed manpower to complete full or half day projects they’re assigned to at local agencies.

Our agency is not a United Way Funded Partner - may we still participate in Day of Caring?

Absolutely! Day of Caring is open to all nonprofits, community organizations, service clubs, etc.

What kinds of projects do nonprofits submit for Day of Caring?

It depends on the needs of your organization, creativity and resources. Projects have included but are not limited to: yardwork, painting, landscaping, deep cleaning, disseminating flyers, supply/pantry organization, donation room sorting, fence building, assembly of furniture and playground equipment, construction of Little Libraries, delivering flowers to home-bound neighbors, creating welcome kits for shelter guests, clerical or administrative projects such as bulk mail collation, etc.

I have questions about whether or not our project would be a good fit.

Ask us! Just send an email to doc@lubr.org and we’ll do our best to accommodate you. Safety is our top priority. United Way reviews all project requests and reserves the right to refuse any, for any reason.

What will our agency need to do to prepare for Day of Caring?

We suggest appointing a Project Lead within your organization who is responsible for planning, gathering supplies, developing instructions, etc. If you have satellite locations, consider a Project Lead at each facility. Please keep safety top of mind in all preparations.

Is there cost associated with Day of Caring?

Yes, depending on your projects. Nonprofits hosting Day of Caring projects are responsible for providing any required tools, materials, supplies for the completion of your project(s). Many agencies are resourceful to ensure cost effective projects, such as borrowing or renting equipment, seeking donations, etc. The in-kind manpower or sweat equity presents huge cost savings!

May we ask volunteers to bring items along?

Yes, but your agency is responsible for required tools, materials and supplies. Helpful reminders may include work or gardening gloves, sunscreen, extra tools, etc.

What is something agencies forget to do on the Day of Caring?

Often agencies are so focused on the task or projects at hand, they forget to seize the opportunity to educate and inspire Day of Caring volunteers about their mission. Warmly welcome volunteers with a brief tour, talk about why your agency exists and the value it brings to our community. Remember, there

may be potential volunteers, donors or allies in the room. Last but not least, don't forget to say thank you!

Should our agency plan to provide lunch for Day of Caring volunteers?

Traditionally, organizations have provided lunch for volunteers. Some volunteers prefer to do lunch on their own, but extending an invitation for lunch is appreciated and encouraged. If your agency budget is restrictive, consider creative options such as an in-kind request, sponsor, potluck, etc.

Wisconsin weather is unpredictable ...

Indeed! It was 95 degrees for the 2017 Day of Caring. Please be prepared to keep volunteers hydrated throughout the day. You may also consider having on-hand extra fans, umbrellas, etc.

Is there an alternative Day of Caring date in the event of inclement weather?

No. Given the myriad logistics associated with this event, we are unable to schedule a make-up day. Volunteer teams and project sites are encouraged to connect directly to discuss inside projects, make alternative arrangements, etc.

When is the deadline to submit Day of Caring projects?

Wednesday, August 1st. Register online at LiveUnitedBr.org/DOCprojects

May we submit more than one Day of Caring project?

Yes, you're welcome to submit multiple projects but please complete a separate form for each one.

Will additional communication on Day of Caring be provided?

Yes, after you register a project you will receive a confirmation email. You will also receive notification of what teams have been assigned to your project(s) after registration closes. That communique will include additional info in advance of the event. Otherwise, submit questions to doc@lubr.org.

Should we publicize our Day of Caring participation via social media?

Absolutely! Before and after photos are awesome. Please post directly to United Way Blackhawk Region's Facebook page or tweet @UnitedWayBR. Use the hashtags: #LiveUnited #DOC18
